

Final Project Recommendations

Final Project

- (1) Articulate a research question
- (2) Find some data that can address the question
- (3) Generate a report that:
 - Briefly describes the research question and data
 - Reports and describes the results 1 inferential test
 - Contains 1 figure
- (4) Make materials available on GitHub
- (5) Briefly present the report to the class

My Recommendation

1. Make a GitHub repo for your final project
2. Enable Pages for that repo

Branch

GitHub Pages is currently disabled. Select a source below

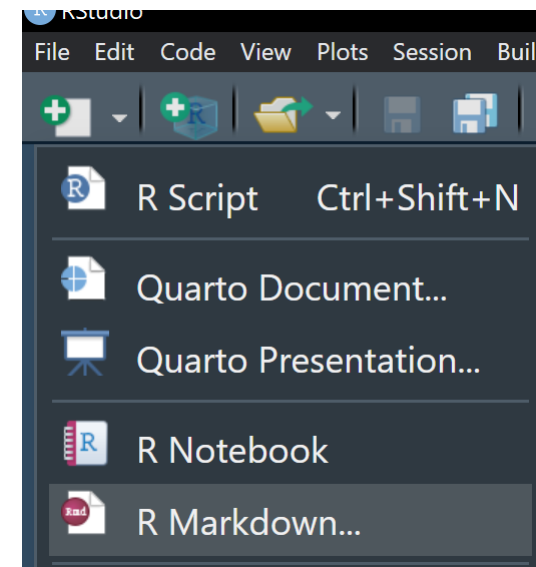

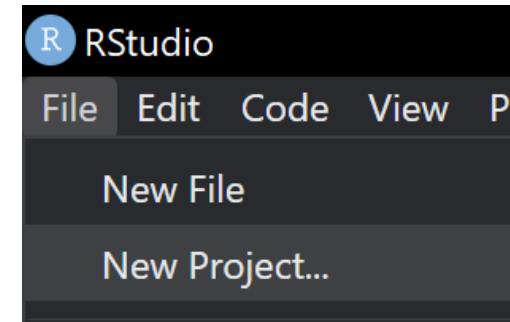

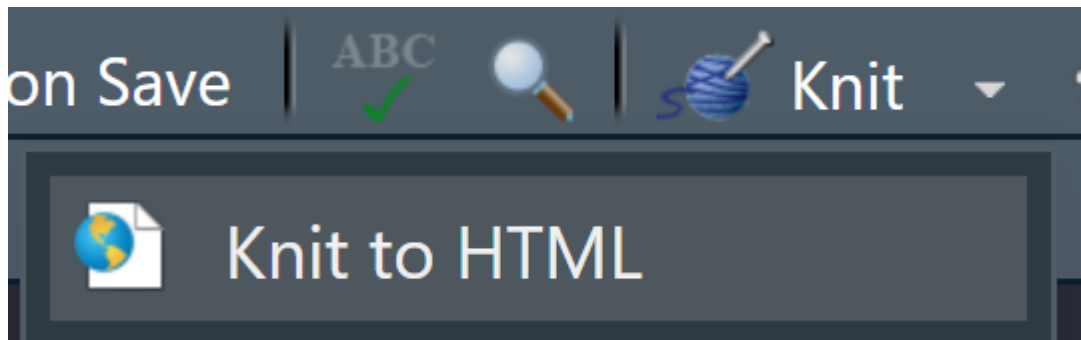

My Recommendation

3. Make an R Project for your final project

- *Save it somewhere you can find*

4. Use R Markdown to process and analyze your data as necessary

- Knit your report as an HTML file

My Recommendation

5. Make your report the landing page for your GitHub page

- Rename the report “index.html”
- Place it in the root folder of your project (next to your .Rproj file)
- Push to your GitHub repo
