

Final Project Presentation

Be prepared to:

- Pull up your final project report
- Describe your research question (~1-2 sentences)
- Describe the design of your study:
 - Who were the participants?
 - What were the predictor variables? How were they measured or manipulated?
 - What was the outcome variable? How was it measured?
- Describe your prediction(s) (~1-2 sentences)
- Show and explain your results
 - What tests did you run?
 - What do they mean?
 - How do they support or challenge your prediction(s)?
